## Summary

Computer Engineering student with strong skills and hands-on experience in Java backend development, including Core Java, REST APIs, database integration, MVC architecture, microservices basics, and containerized application deployment.

## Education

<b>Trinity Academy of Engineering</b> <i>Bachelor of Engineering in Computer Engineering</i>	Expected Jun 2027 Pune, Maharashtra
<b>Jayawantrao Sawant Polytechnic</b> <i>Diploma in Computer Engineering</i>	Jun – May 2024 Pune, Maharashtra

## Skills

**Technical:** Java (Core & Advanced), Spring Boot, Spring MVC, REST APIs, Hibernate/JPA, JDBC, MySQL, Microservices Architecture  
**Frontend:** React.js, HTML, CSS, JavaScript  
**Concepts:** OOP, Data Structures, Multithreading, Client-Server Architecture, REST Architecture, MVC  
**Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code

## Experience

<b>ShadowFox</b> <i>Java Development Intern</i>	Aug 2025 (1 Month) Remote
<ul style="list-style-type: none"><li>Developed a real-time multi-client chat application using Core Java, Socket Programming, and Swing (GUI).</li><li>Implemented messaging and file transfer features using client-server architecture.</li><li>Managed 30+ concurrent users and message broadcasting using thread-safe Java collections.</li></ul>	
<b>Proazure Software Solutions Pvt. Ltd</b> <i>Android Developer</i>	Jun 2023 – Jul 2023 Onsite
<ul style="list-style-type: none"><li>Developed an Earthquake Alert System application that broadcasts alert messages based on real-time sensor data.</li><li>Integrated Arduino Uno with the application using Processing IDE to receive and process earthquake data.</li><li>Implemented zone-based mapping (Green/Red) to visually indicate safe and danger areas during alerts.</li></ul>	

## Projects

<b>Edu Platform</b>   <i>Java, Spring Boot, Spring MVC, RESTful APIs, MySQL</i>
<ul style="list-style-type: none"><li>Developed scalable backend services using Java and Spring Boot for managing coding challenges, submissions, and user progress.</li><li>Implemented RESTful APIs with Spring MVC following layered architecture principles.</li><li>Integrated MySQL database with optimized queries for efficient performance tracking.</li><li>Built a real-time leaderboard system to improve student engagement and competitive learning.</li></ul>

## Achievements

Finalist — **Smart India Hackathon (SIH) 2025**, national-level hackathon, selected among top teams across India.  
First Prize — **TECHNOTHON 2024**, national-level offline project competition, Anantrao Pawar College of Engineering & Research, Pune.
